Abstract

This is the guest editors' foreword for the special issue on selected papers from the 39th European Workshop on Computational Geometry, EuroCG'23.

Keywords and phrases EuroCG, special issue

Digital Object Identifier 10.57717/cgt.v3i2.68

Foreword

This special issue of Computing in Geometry and Topology is dedicated to selected papers from the 39th European Workshop on Computational Geometry, EuroCG'23, which was held in Barcelona, Spain, March 29–31, 2023. The workshop was organized by the UPC Research Group in Computational Geometry, <https://dccg.upc.edu/>, a research group of the Mathematics Department of the Universitat Politècnica de Catalunya. The workshop included three invited lectures and 63 contributed talks. The full Book of Abstracts is available at https://dccg.upc.edu/eurocg23/wp-content/uploads/2023/05/Booklet_EuroCG2023.pdf.

This issue contains six selected papers, each of which has undergone a thorough refereeing process, according to the high standards of the CGT journal. We thank all the authors of the submitted papers for their contributions, the diligent referees for their valuable assistance, and the founding editors David Eppstein, Marc van Kreveld, and Wolfgang Mulzer for the opportunity to assemble this special issue.
